**was shown in the video, you can generate tons of robux with this tool and exchange them into other currencies. The procedure of generating robux is quite easy; you will need to follow the steps you can find in the video. Many people are looking for tips on how to use the faucet. My tip: if you want to use the faucet, please do not generate robux with it. The faucet is only to help out other players without fees or any hidden ties to your accounts. There is a new system that you can follow in order to get free robux. I will show you the new system and share a link to a detailed guide and FAQ section in this post. Here are the steps that you need to follow: Copy the following link: This system will generate robux for you without any ties to your accounts and it is a safe way to get free robux. However**
